PROFESSIONAL SUMMARY

Frontend Developer with 3+ years building responsive, production web applications in React.js, Next.js, and TypeScript. Experienced working within teams of 6+ engineers on component-driven UI architecture, REST API integration, and cross-browser performance optimization. Comfortable converting Figma designs into pixel-accurate, accessible interfaces and collaborating with backend and design teams in agile sprints. Looking to bring frontend ownership to a product team building at scale.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Redux Toolkit, Tailwind CSS, Bootstrap, SASS

APIs & Data: REST API Integration, Axios, Fetch API

Tooling & Workflow: Git & GitHub, Jira, Figma-to-code, Agile/Scrum, Responsive & Cross-browser Development

PROFESSIONAL EXPERIENCE

Frontend Developer — Ibyte Infomatic Pvt Ltd, Noida

Mar 2025 – Present

- Build and maintain responsive, production React.js and Next.js applications, introducing TypeScript to catch type errors earlier and reduce runtime bugs in shared components.
- Design and ship reusable UI components in a component library used across multiple product screens, cutting duplicate styling work for the team.
- Integrate REST APIs end-to-end with backend engineers, handling loading states, error boundaries, and edge cases for a smoother user experience.
- Collaborate within a cross-functional team of 6+ engineers and designers in agile sprints, taking features from Figma handoff to deployed UI.
- Diagnose and fix mobile-responsiveness and performance issues across devices and browsers as part of ongoing UI refactoring.

Frontend Developer — TIS India Digitech, Noida

Apr 2024 – Sep 2024

- Converted Figma designs into pixel-accurate, production-ready pages using HTML, CSS, JavaScript, Bootstrap, and SASS.
- Built responsive layouts tested across desktop, tablet, and mobile breakpoints ahead of each release.
- Ran manual cross-browser testing (Chrome, Firefox, Safari, Edge) to catch layout and interaction bugs before handoff to QA.

UI Developer — TIS India Digitech, Noida

Feb 2023 – Apr 2024

- Built and maintained client websites with clean, semantic UI implementation from design mockups.
- Partnered directly with designers to translate visual specs into working frontend code, iterating through review cycles.
- Maintained accessibility basics (semantic HTML, alt text, keyboard-navigable elements) and cross-browser compatibility standards.

PROJECTS

Buyoff | [Next.js, React.js, Tailwind CSS](#) | buyoffssr.netlify.app

- Built a responsive frontend from scratch with reusable, prop-driven UI components shared across pages.
- Implemented modern grid/flex layouts and optimized load performance for a smoother browsing experience.

ThunderScript | *Next.js, Tailwind CSS* | dev.thunderscript.com

- Translated Figma designs into responsive frontend sections with a consistent, reusable component structure.
- Refactored layout components to improve responsiveness across breakpoints.

BrainIQ | *React.js, JavaScript* | devbrainiq.netlify.app

- Developed an interactive quiz/gaming UI with dynamic state-driven components and real-time UI updates.
- Optimized component re-renders and layout structure for smoother interaction on lower-end devices.

Infra Corridors | *React.js, Bootstrap, CSS3* | infracorridors.netlify.app

- Built responsive landing pages and reusable frontend sections from design specs.
- Ensured visual and functional consistency across devices and browsers.

EDUCATION

B.Tech in Computer Science — AKTU, Lucknow (2023)

Diploma in Information Technology — Km. Mayawati Govt. Girls Polytechnic (2020)

LANGUAGES

English — Professional Proficiency | Hindi — Native Proficiency
